Great Loss of Life and Property.

THE SITUATION AT CHICAGO.

The Boodle Aldermen—The Remains of Chief Justice Chase. News of the Day.

Special to the Herald by the Associated Press.

NEW ORLEANS, October 13.—Chief Operator West, of the Western Union Telegraph Company, has received the following message from the operator at Orange, Texas: The town of Sabine Pass was totally destroyed by the water of the Sabine river last night. There are known to be sixty-five lives lost. Last night during the overflow the hotel, with fifteen or twenty people in it, was swept out into the bay and every one of the inmates drowned. The Captain of a schooner from there to-day says that not a house is left in the whole country, and every living thing was drowned. A party of men came from Beaumont this evening on a train with the intention of joining the people of Orange and going down to Sabine Pass with a relief boat.

NOTE.—[The wires have been down all day both sides of Orange. Sabine Pass is twelve miles below Beaumont on the Sabine River.

THE CHICAGO STRIKERS

Winning Friends on Every Hand.

CHICAGO, October 13.—Mr. Barry, of the Arbitration Committee appointed by the Knights of Labor to adjust the labor troubles in the yards, said to-day that he had hopes of making a settlement in the morning, and would at any rate know before noon what was the prospect of compromising the difficulties. The quiet that has attended this great strike is the wonder of every one who comes to the yards and has made thousands of friends to the Knights of Labor, to whose efforts the admirable order is due.

Pinkerton's men have completed their culinary apparatus and will live entirely in Washington Butchers Sons' packing house. They can't buy anything outside except at the Transit House. There is a rigid boycott against them.

DELEGATE BARNEY'S IDEA.

Delegate Barney was seen by a Daily News reporter at noon to-day. He said: "The men have their minds set on the eight-hour rule and will agree to nothing else. We made a proposition this morning to the packers that the eight hour law be continued and that the men will all agree to work all the overtime necessary. This will be practically a recognition of the eight-hour question and will be accepted by the men. The packers submitted a proposition that the work and men be paid by the hour. This will not be accepted. I have proposed a meeting with the packers at the Board of Trade this afternoon and should they accept the proposition the matter will be settled ultimately. Should they not meet we will take other means to effect a settlement; for this thing must be fixed up quickly as it all nonsense for Armour to suppose that his beef butchers will work under the circumstances by which they are now surrounded. If I find that things are as I sometimes suspect they are, and that the strikers are playing a waiting game, I will take more energetic measures at once and on my return to Richmond shall tell the Knights there that Armour beef is not as good as it used to be and we will see how the opinions of 200,000 men throughout the country will effect the trade."

THE BOODLERS.

Cases of New York's Crooked Aldermen.

NEW YORK, October 13.—Aldermen O'Neill and Reilly slept last night at police headquarters with detectives as bed-fellows. This morning they were taken to the District Attorney's office. At noon to-day all the Boodle Aldermen, who are not known to have "skipped," had either been taken into custody or surrendered themselves except Wendell and Finck. No apprehension is felt for these two, it being said that they would shortly be on hand. In the General Sessions Court to-day the case of Henry L. Pierson was called, and as he did not respond his bond was declared forfeited.

SAN FRANCISCO, October 13.—A New York dispatch says: On application of the District Attorney the bail of Alderman Sayles was also declared forfeited. Pearson gave bonds in $40,000 this afternoon. Ex-Alderman Wendell came to the District Attorney's office accompanied by his bondsman, Bernard Korsah, a jeweler. The Alderman felt greatly elated at having been so lucky as to keep out of the clutches of the police last night, and apologized to the detectives for the trouble he had given them in searching for him. He said he had slept in an emigrant's lodging house, in Greenwich street, last night. Ex-Alderman Finch also called at the District Attorneys office to arrange for his increased bail. Alderman Shiels, who was released on temorary bail last night, in the police central office, paid a short visit to the District Attorney's office, remaining only until his bonds were perfected and made permanent.

A SOLEMN PROCEEDING.

Removal of the Remains of Chief Justice Chase.

WASHINGTON, October 13.—During the removal of the remains of Chief Justice Chase to-day there was no ceremonial. The remains, which were deposited thirteen years ago in Oak Hill Cemetery, were disinterred day before yesterday, and lay in their new casket in the middle of a little Gothic chapel. Around them the assemblage stood with uncovered heads, the bodyguard was marshalled to its place, and then forming in funeral procession followed them slowly to the hearse. Mrs. Chase and her daughter were escorted to and from the carriage by General Sheridan. The bodyguard was composed of colored men, among whom were Edward Brown, who for many years served Chief Justice Chase as coachman; Wm. Joyce, his messenger, who was with him when he died; and Howard Williams, for many years a trusted servant of the family. The train left for Cincinnati. Rev. Dr. John Hall, of New York, will deliver the oration in Music Hall in Cincinnati.

The Turf.

CINCINNATI, October 13.—The Latonia Jockey Club fall meeting; fifth extra day. The weather was fine, but the attendance was light. The track was in fair condition.

First race—Maidens, three year old and upwards, seven furlongs; Emma Johnson won, Clatter second, Probus third. Time, 1:30½.

Second race—Three-year-old non-winners, one mile; Bonita won, Birthday second, Wanderoo third; Time, 1:44.

AT LONDON.

LONDON, October 13.—Race for Middle Park plate for two year-olds, three fourths of a mile, was run at Newmarket to-day. Eight horses started. It was won by Lord Calthorp's colt Florentine; Douglas Baird's colt Enterprise second, R. H. Combes' colt Maxim third. There were two lengths between first and second. Time, 1:17 4-5.

A Lawyer to be Disbarred.

BALTIMORE, October 13.—An order was issued to-day by the Supreme Bench of this city, calling upon Parker Veazey to show cause why he should not be disbarred from practicing law in this State. Veazey is a prominent lawyer who was appointed postmaster by President Cleveland. He resigned and shortly after made an assignment for the benefit of his creditors, with large liabilities and small assets. The order was issued by the court on proof being produced of his having misappropriated trust funds to the amount of $28,000 and he will probably be disbarred. He was removed from the trusteeship in which his defalcation was discovered.

A Steep Bill.

NEW YORK, October 13.—The Sun announces that it has paid the bills of Holmes & Co. for $500 for embalming the body of General Grant.

AN UNFORTUNATE AFFRAY.

Fatal Quarrel Between Students and Negroes.

NEW YORK, October 12.—The Herald's Durham, N. C., special of October 11 says: A lamentable affray between students of the North Carolina State University and negroes took place on Chapel Hill Saturday night. It resulted in the death of one student and the wounding of others. For some time past a bitter feeling has existed between the students, especially the student who was killed, Jacob A. Freese, and the negro who is supposed to

HAVE SHOT HIM,

Pal Bierner, and from time to time they have quarreled. On Saturday evening they had a fight, but as the negroes outnumbered the students they retreated and made their way to the University. The negroes retired to their usual rendezvous, the house of a negro named Barber, where they held high carnival far into the night. Two students who had spent the evening in town, while passing Barber's house were

CURSED AND STONED

By some of the gang. The young men hastened to the university and arousing up Freese and four others easily induced them to give assistance in seeking redress. On reaching the house they tried to force their way in, at the same time calling on the negroes to come out and give them satisfaction.

THE REPLY WAS A VOLLEY

From a second-story window. The fire was returned by the students, but so far as learned none of the negroes were injured. Freese was instantly killed, a bullet passing through his heart, and two other students were wounded. A party, well armed, has gone in pursuit of the ringleaders of the negroes, who fled after the murder, and should any one of the fugitives be captured he will undoubtedly be lynched. Seven negroes have been arrested, and fears are expressed that they will be lynched by the students.

THE WESTERN UNION.

Annual Report and Newly Elected Directors.

NEW YORK, October 13.—At a meeting of the Western Union Telegraph Company's stockholders held here to-day, Samuel Sloan presiding, the following new Directors were elected. Austin Corbin, Henry B. Hyde and John G. More. These gentlemen take the places of Harrison Durkee, deceased, Frank Work and Hugh J. Jewet.

President Norvin Green presented his annual report. The bonded debt at the close of the year was $6,827,200. The business of the year was: Revenues, $16,298,638; expenses, $13,378,783; profits, $3,919,855; surplus, July 1, 1885, $4,324,504; from which profits and surplus deduct $3,934,025 for dividends and interest charges, and a surplus June 30, of this year, of $4,309,833 remains. The report says: While the volume of business traffic has continued to increase, the tables show a material reduction in revenues principally in cable gold, and stock and commercial news earnings. Notwithstanding continued reductions in rates, the earnings from the land line's service have been well maintained, the falling off in the earnings from messages transmitted over land lines being less than the increase from wire rentals. The outlook for the ensuing year is better in the face of active and extended competition and further reduced rates. The earnings are well maintained. The early moving grain crop made an active business in July and August, and the weekly returns from Test officers showed a large increase. It has been demonstrated that with two or more competitors reaching all the principal commercial centers east of the Rocky mountains, and with some of the rates cut below the cost of the service, the company still maintains an earning capacity equal to more than four per cent. on its capital stock above fixed charges."

THE A. T. & S. F.

Arraigned on Wall Street for Injudicious Deals.

NEW YORK, October 13.—The Wall Street Indicator says: This morning a circular just issued by C. H. Venner, of Boston, puts the management of the Atchison, Topeka & Sante Fe Road in such a light that it cannot afford to any longer remain silent. Venner called attention to the issue of April 20th, 1886, of $8,000,000 worth of Atchison stock for $1,560,000 of the Gulf, Colorado & Sante Fe stock. The exchange was made to purchase a road 700 miles in length, lying wholly in Texas, and more than 350 miles distant from a connection with any part of the Atchison system. The road in 1884 earned $152,120 less than the interest on its bonds and in 1885, $85,124 less. The Atchison, Topeka & Sante Fe Railroad will be obliged to build 150 miles of road through an almost uninhabited Indian territory, where the railroad will not pay for years to come. Such a connection will cost the Atchison $5,600,000, still further increasing the annual charges of that company. Venner claims that the management made this purchase without allowing the stockholders to vote upon it or even letting them know anything about it. Venner shows wherein a number of Atchison deals have resulted in great injury to that company.

THE AMERICAN FLAG.

Not to be Hauled Down With Impunity.

WASHINGTON, October 13.—Further advices have been received by the State Department to-day touching the action of the Canadian authorities in hauling down the American flag on the schooner "Marion Grimes." The facts as officially stated are that the anniversary of the birthday of Grimes occurred while his vessel was in the custody of the Canadian officers, and he celebrated that event by hoisting the American flag over his vessel. The Canadian customs officers have confessed that a mistake was made in summarily lowering the colors and have expressed regret at the occurrence; and as Grimes has been released no further notice is likely to be taken of the case by the Department of State.

REPORTED ASSASSINATION

Of Ex-President Manuel Gonzales.

EL PASO, Tex., October 13.—There is a report in Paso del Norte that ex-President Manuel Gonzales, of Mexico, has been assassinated at Madalajara. The Mexican Consul was asked about it. "I have no confirmation of the rumor, though I should not be surprised," be said, "to hear of its being true. President Gonzales was very unpopular in Mexico, and was believed to be intriguing for another term as President. It has been feared that he might be assassinated.

A NEW WRINKLE

In Fashionable New York Society.

NEW YORK, October 13.—Curious features of New York life are the ladies' receptions now held daily in most gorgeously appointed bar-rooms. One down town establishment receives regularly every morning from 8 o'clock until 11. In self defense it has been obliged to announce, by a conspicuous placard, that ladies cannot be admitted after the latter hour. A reporter found more than thirty women in this place the other morning, and all of high respectability. The business of the bar goes on as usual during these visits.

W. H. H. MURRAY

Takes Unto Himself a Bride.

BURLINGTON, Vt., October 13.—W. H. H. Murray was married last Monday evening. The bride was Frances M. Rivers, of Montreal. She is a communicant of the Catholic church, and it was by a compromise that the ceremony was performed by a civil officer. Henry Ballard, of this city, was the only witness besides Murray's daughter. The reason given for having the wedding kept quiet is that Murray was to lecture in Boston three evenings last week and he did not desire to create a sensation. His divorced wife is said to be practicing medicine in New Haven, Conn.

A Heavy Judgment.

HUDSON, N. Y., October 13.—To-day a judgment was filed in the County Clerk's office against George H. and Samuel J. Tilden, Jr., in favor of the National Bank of Kinderhook for a $125,000 claim for notes given it in 1885.

THE COAST.

A. D. January Admitted to Bail.

A SALOON-KEEPER SUICIDES.

Inducements to the Railroad—Fire at Fresno.

[Special to the Herald by the Associated Press.

SACRAMENTO, October 13.—Arthur D. January, the defaulting ex-Deputy State Treasurer, has been admitted to bail in $12,000.

A Shocking Suicide.

SONOMA, Cal., October 13.—Jacob Ahrens, a saloon keeper, aged 35 years, suicided last night at 8 o'clock. Edward Clark, aged 57, shocked by the suicide, it is supposed, died this morning at 10 o'clock.

VALUABLE INDUCEMENTS

For a Speedy Completion of the Railroad to San Luis Obispo.

SAN LUIS OBISPO, October 13.—An immense mass meeting was held in this city last night to enable the people to give voice to their sentiments on the subject of the incoming railroad. Nearly 2000 people were present, and the speakers' stand was occupied by the representative men of the city. The meeting was characterized by intense interest and enthusiasm. It was decided to make substantial inducements to the railroad management to insure a speedy completion of the Soledad extension into San Luis Obispo. Gen. Murphy offered the railroad fifteen miles of roadway through his ranch, the Santa Margarita, and it was decided to offer city land for depots, shops and warehouses, and to request the City Council to grant the roadway free of taxation for a term of years as inducements for a speedy railroad entry.

A Child Badly Burned.

FRESNO, October 13.—The residence of Mr. Johnson, on the Vida Homestead was, with contents, burned last night. The loss is $2500, with an insurance of $900. One of his children was badly burned. The origin of the fire is unknown.

Still Pursuing the Villain.

SAN FRANCISCO, October 13.—The proprietors of the Union Warehouse have brought suit against Edward H. Cawley to recover $11,250, the value of 125,000 jute bags which Cawley appropriated while employed in their warehouse. Cawley was prosecuted in the criminal courts for theft but was acquitted, as more than three years had elapsed since the commission of the crime.

Louis Napoleon Bound East.

SAN FRANCISCO, October 13.—Prince Louis Napoleon, who arrived here from Japan by the last steamer, left to-day for New York. He will stop one day at Salt Lake and two days at Chicago.

Mining Stocks.

SAN FRANCISCO, October 13. — Crocker, 40c; Ophir, 85c; Savage, $2; Hale & Norcross, 55c. Independence assessed twenty cents.

PASADENA NATIONAL BANK

Duly Authorized to Begin Business.

WASHINGTON, October 13.—The Pasadena National Bank was yesterdey authorized to begin business with a capital of $50,000, by the Comptroller of the Currency. The President of the bank is I. W. Hellmen and the Cashier, G. A. Swartwout.

A BODY IN A BOX.

Possibly Another Maxwell Case.

PITTSBURGH, October 13.—The remains of a woman were found in an oak box at the "Alleghany Dump," near the end of the Union bridge, this morning. The lid of the box had been broken off by a jar the box received when it fell, and the contents had rolled out. The body was nude and in an advanced stage of decomposition. On the box were labels of the Pacific Mail Steamship Company and the New York office of the Adams Express Company. The authorities are inclined to think that the body was shipped from Europe.

UNDER THE WHEELS.

Terrible Death of a Railroad Man.

DENVER, October 13.—A Leadville special to the News, this afternoon, says: Clarence Budd, employed at the yards of the Denver and Rio Grande railroad, at Granite, while attempting to jump on a moving freight train, fell under the wheels which passed over his neck, arm and both legs, severing them completely. He was a son of the agent at that point.

Army Appointments.

WASHINGTON, October 13.—The President to-day appointed Col. O. B. Wilcox, of the Twelfth infantry, Brigadier-General, vice Gen. J. H. Potter, retired yesterday. Gen. Wilcox has been ordered to Fort Leavenworth to assume command of the Department of the Missouri.

The President has appointed Col. Jas. C. Duane to be Chief of Engineers of the United States army, with the rank of Brigadier-General, vice Gen. Newton, resigned. Gen. Duane is now on duty in New York as engineer of the Third lighthouse district.

A Wedding of Cobolds.

NEW YORK, October 13.—A wedding occurred on the stage of the Alexander Musee on the Bowery last evening. The bride was Princes Lucy, nineteen years old, who is twenty-seven inches in heighth and twenty-three pounds in weight. The groom was General Rheinbeck who weighs forty pounds, is thirty-six inches in height and twenty-one years of age. The pair stood on a small table in the center of the stage. The bride wore a train of white silk with lace front. The bridesmaid was Miss Annie Bell, a professional fat woman.

The Storm Abated.

GALVESTON, October 13.—Last night's furious gale subsided towards morning, and today is clear. The damage to shipping and railroad property is slight, and beyond the wetting of a couple of barges laden with cotton on the Gulf side of the city, no serious damage is reported.

Powderly's Popularity.

RICHMOND, October 13.—The General Assembly of the Knights of Labor proceeded to the election of general officers to-day. Grand Master Workman Powderly and Grand Worthy Foreman Griffith were reelected to the offices they have already held for seven consecutive terms.

Tammany Democrats.

NEW YORK, October 13.—The committee appointed by the Tammany Hall county convention waited upon Congressman Hewitt this afternoon. He invited them into his private office and a long discussion and conference was held. When it was ended the committee came out with downcast faces and hurried away. It is generally believed that Hewitt has declined the nomination for Mayor.

The Buckeyes.

A meeting in the interest of the reorganization of the Union was held at Lawrence & Son's photograph parlors, Downey Block, last evening, the President in the chair. After discussion, which elicited a general concurrence in the benefits of the organization, as shown in the past, a motion was unanimously adopted that the Union be reorganized, for which purpose a meeting will be held at the same place next Wednesday evening at 7:30 o'clock, to which all old members are invited, together with other people who may wish to join. Individual notification will be made by the executive committee, and an announcement of the meeting will also be published in the daily press. It is probable that a short entertainment will follow the election of officers for another year.

OPENING CEREMONIES

Of the Medical College of Southern California.

Yesterday, October 13th, the second year of the medical department of the University of Southern California commenced under very favorable auspices. There were fourteen students present and three or four more are expected to join the class after a few days. The President of the faculty, Rev. Bovard, delivered the opening address, in which he impressed the students with the great importance of their studies, as the medical profession has to shoulder more responsibilities with the public than any other profession. He cited a famous German pathologist, who stated that to comprehend medicine thoroughly, it required the knowledge of almost every other science.

The Dean, Dr. J. P. Widney, also addressed the students, giving a review of the last year's work, which was very gratifying. He also stated that, but for the strict adherence to the rules in regard to matriculating students and their rigid examination, he could have doubled the number of the class, but he would rather have a small class than a poor one. Many young men had applied who did not possess the requisite preliminary education and could not be admitted.

The next speaker was Dr. Joseph Kurtz, professor of surgery. He directed the attention of the students to the work before them. He said that some people disagreed that the life of a physician was such an easy one, that he had nothing to do but to ride around, see the patients and charge big fees; that some patients and particularly ladies just get sick to help the doctors along. Further than merely spending a few years about a college, work or no work, would entitle the student to his degree of M. D. "If," said Dr. K., "there are any among you, who were prompted by the desire to lead such a life and do no work, let me undeceive you. The study of medicine is no child's play; it is hard work to master your anatomy, physiology, pathology, y, y, y's.

He then impressed them with an idea of the work before them, and that only great diligence, exercised not only during their student years, but all their lives long, would only qualify them to become thorough physicians.

In regard to that easy life of the doctor, he stated that this is only imaginary; that a doctor with a small practice would worry and pass sleepless nights for fear his career might be a failure, and that a doctor with a large practice had also his sleepless nights, which he had to spend at the bedside of his patients. For war to the doctor who refuses to respond to a night call.

"Let me tell you," he continued, "that it just pleases the majority of the people to fall sick or get worse exactly after midnight; railroad accidents occur mostly at night; criminal injuries are generally inflicted at night; babies will insist to make their first appearance in the night, and those little fellows never cry as hard in the day time as they do in the night; and for all these the physician must be called out of his cozy night-quarters."

Dr. Kurtz then cited many other unpleasant features pertaining to the practice of medicine, and stated also that but very few physicians were successful in pecuniary matters.

He finally remarked that if the students, after knowing all this, the work before them, and the expectations of their practice, were still willing to study medicine, that then he would take them by the hand and say to them:

"You will and must succeed, for now you know what is before you."

The exercises then closed and the students began to have a jolly time, having engaged a band of music.

AN APPEAL

From the Ladies' Benevolent Society to the Charitable.

Will our wealthy men, or even our fairly prosperous business men, tell us what we are to do. Distress is increasing. The most touching case named in the daily papers last Saturday morning was one of seven brought to our attention on that day. The winter is at hand, when our expenses are certain to be greatly increased, and yet our treasury is running low. Shall we be allowed to exhaust it entirely? Are the prosperous men of our city willing that this charitable institution should suspend operations, and leave the poor to starve and the sick to die? We cannot make brick without straw. Without money our mission to the destitute ceases. Give us the means and and we will gladly do the work; withhold the means and suffering and death are absolutely sure to follow. Prompt payment of dues by the members of our society would temporarily relieve us. We are greatly embarrassed by this surprising delinquency. Will the men of Los Angeles, and the members of our society tell us plainly upon what we may depend. If we are to carry on our work, we must have, near the center of the city, a store-room and headquarters of distribution, to which cast-off clothing could be brought, and from which it could be taken away. A back-room, if somewhat dark and undesirable for business purposes, would answer our needs. Will anyone having such a room please report to Mrs. Ducommun, Main st., with whom contributions of money may also be left. A. L. Bath, at the foundry, corner of Virgin and Castelar streets, and Dr. Wollweber, corner of Third and Fort streets, will also receive any money intended for us. And money we must have or long before the winter is over we must close our ears to this cry of distress, turn our backs upon the destitute, wind up the affairs of our society and resign the offices we hold.

FOREIGN.

Results of the Bulgarian Elections.

ATTITUDE OF THE POWERS.

A Matter of Little Moment—Escaped Siberia Convicts—The Panama Canal.

[Special to the Herald by the Associated Press.]

SOFIA, October 13.—The elections in Bulgaria for members of the Great Sobranje resulted in the return of 489 Government candidates, 20 members of the Zankoffe party and 15 adhereuts of M. Jaraveloff.

THE BALKAN PROBLEM.

Agreement Between Austria and Russia Favored.

NEW YORK, October 13.—Thomas Power O'Connor cables from London to the Star: In Russian circles, the Czar's alleged declaration to the contrary notwithstanding, the only practical solution of the Balkan problem spoken of is temporary occupation of Bulgarian strongholds and the chief centers of population and commerce before the snow flies. The action of Austria is uncertain. An influential party of men favor a friendly agreement between Austria and Russia for a simultaneous march southward with Salonica on one side and Constantinople on the other. England assuredly will not lift a finger against Russia, without an alliance with one of the great powers outside of Turkey. Yet there is not a single sign worthy of of notice of success in the proposed entente cordiale between England and Austria against Russia. On the other hand there are many indications of a secret understanding between Austria and Russia, through Germany, to partition the Ottoman Empire in Europe between them.

SLIGHT CONCERN.

NEW YORK, October 13.—Labouchere cables from London: "Whether Bulgaria will be Austrian, Russian, Turkish or Bulgarian is a matter that really no more concerns us than whether Sitting Bull or Swimming Frog is chief of some tribe of red Indians in the Rocky Mountain region. We fail to realize this because of the craze which leads us to imagine our mission is to keep an eye upon Russia. We may keep an eye upon her but can fortunately do no more."

FROM A SIBERIAN JAIL.

Escape of a Celebrated Nihilist Murderer.

NEW YORK, October 13.—A Sun's St. Petersburg special says: The police have received full confirmation from Siberia of the reported escape of Degaieff, the famous Nihilist conspirator who planned and assisted in the murder of Lieutenant-Colonel Sudeiken, Chief of Police of St. Petersburg, and one of his staff, nearly three years ago. The police have traced Degaieff to Geneva and have vainly tried to wheedle the Swiss government into extraditing him. The police are getting nervous over the frequent escapes from Siberia. This year a few who have ventured to return to St. Petersburg have been recaptured and returned, but the majority have made their way to Geneva and London, and plotting against the government has been renewed with redoubled fervor. Since June twenty Siberian prisoners have escaped, including two cavalry officers and several students.

THE PANAMA CANAL.

Corruption of the Company's Employees.

NEW YORK, October 13.—According to Señor Santiago Torrico, of the Peruvian navy, who for four and a half years, previous to last February, was in charge of the "Surveillance des Mandats de Paiement" of the Panama Canal Company, the Company is conducted in much the same manner as was the New York Board of Aldermen in in 1884. Boodle is what every employee looks for and what he generally gets, so Señor Torrico says. Personal gain is the ruling motive of every man, no matter how low his position, who is in the employ of the Company at Panama. Señor Torrico further says: "Unless a different set of men take hold of the works the Panama Canal will never be completed." The manner in which these gentlemen live is simply princely. Gorgeously furnished houses, horses, carriages and palace cars are what are considered to be essentially necessary to the company chiefs, in order that they may carry on the work to a successful issue, and the Company's money pays the bills. One man who dealt in furniture, etc., made in two years $590,000 out of jobs, and that is one sample of the corruption existing in the ranks.

IRELAND.

Her Only Mode of Procedure.

NEW YORK, October 13.—A London cablegram says that Labouchere declares that if the Irish are to have self government the scheme must be one to obtain the assent of the Irishmen, and be of such a nature that they will be prepared to endeavor to make it workable. The Irish will not accept grand councils. Their leaders are aware that they could not govern the country with any hope of success under any such scheme. Grand councils would merely be used in order to centralize and organize a dissaffection to England. It must be an Irish parliament or coercion: there is no middle course.

AN ENGLISH THANKSGIVING.

Coming Celebration of the Queen's Ascension.

LONDON, October 13.—It has been arranged that there is to be a public thanksgiving at Westminster Abbey on the afternoon of June 20, 1887, on the occasion of the fiftieth anniversary of the Queen's accession. This service will be a function of much state. It is to be attended by the Queen, the royal family, the embassadors and special representatives of the foreign courts, by members of both Houses of Parliament, by members of the Convocation of Privy Councilors and by other important personages. It is understood that the service is to partake of the nature of a court ceremony.

Dante's "Divine Comedy" has been interdicted in Turkey because in the opinion of the sapient authorities it is a work which tends to cast ridicule and contempt on different religions.

PORTENTIOUS SIGNS.

A New Rifle Armament for German Troops.

BERLIN, October 13.—Germany has decided to supply her whole army with repeating rifles. Four corps stationed on the western frontier of the empire are already equipped with improved arms. It is rumored that all Government manufactories and arsenals are to be run continuously day and night on the work of converting Mauzer rifles, the weapons at present in use by the army, into rifles holding ten cartridges each.

A Minister Insane.

DUBLIN, October 13.—The Mail says Rev. August Stopfotd Brooke, the eminent Unitarian preacher, has become insane, and has been confined in an asylum.

An Artistic Advertisement.

The agents in this city of Messrs. Wm. T. Coleman & Co., have laid on the table of the HERALD, a book meant to advertise California and her products, which has called into requisition the best art of the line. It is done profusely in the colors of the best lithographic art of the day. Many of the pages are worthy of a fine frame, so exquisitly are they done. The big salmon on one of its pages, would do to illustrate Sir Nicholas Harris' *edition de luxe* of Isaac Walton's Complete Angler. The publication cannot fail to popularize California products, a thing this enterprising firm is doing in all ways.

Ghirardelli's chocolate is the most wholesome and agreeable beverage.

THE RACES.

A Good Attendance and a Lively Day at the Park.

The attendance at the Agricultural Park races to-day was much larger than that of yesterday and the events programmed for the day fully justified the generous public patronage. All available space in the grand stand was taken up long before the hour set for the calling of the speed bill, and from 1 till 2 o'clock an unbroken stream of people poured in at the gates, swelling the throng to something in the neighborhood of five thousand visitors.

The crowd was not an impatient one, however, for enough of interest existed in the stalls and coops and pens to occupy their time and attention till the gong sounded for the first event of the day.

This was a seven-eighths mile dash for three-year-olds, for a purse of $200. The entrees were B. P. Hill's grey filly Mollie Capron; Charles Thomas, Jr.'s sorrel gelding Oliver Twist; Hill & Gries' bay filly Allie Hill, and M. A. Forster's black filly Fleet.

All carried 115 pounds but Oliver Twist, who ran under 110. Capron was the favorite in the pools, selling for $20 to $5 for Twist and $5 for the field.

Twist got the pole in the toss up, Allie Hill second, Fleet third, the favorite on the outside.

An incident took place at the start in this race which resulted quite unfortunately for a much admired jockey, and will doubtless be a subject for turf gossip for sometime to come. After several ineffectual efforts to get a start, the racers came up to the post in a most favorable position, save Fleet, who became unmanageable and plunged off to the side of the course, refusing to join the others in the run for the start. Notwithstanding this, the flagman signaled them to "go," and the three got away in neck-and-neck order, leaving the unfortunate Fleet behind. Peppers, the rider of the tardy flyer, at once recognized the hopelessness of an attempt to catch the others and quietly withdrew from the race.

The favorite had, perhaps, a half length the worst of the start; at any rate this much of a gap showed between her and her companions as the three fairly flew along the back stretch. Capron's backers were unable to contain their enthusiasm as they beheld the wiry little mare gradually closing up the gap which divided her from her competitors, and a wild burst of cheers arose as she shot into the home stretch side by side with the others. The struggle up the stretch was an exciting one, especially between Allie Hill and Capron, Twist having dropped a full length behind. Here Capron showed the mettle that was in her. She had suffered in the start and had run the longest mile, (being the outside horse); but her rider had cut out the work for her, and she seemed to understand the situation thoroughly as he stood up in the stirrups and encouraged her with whip and spur. Her spurt for the home goal was a phenomenal one and she shot under the wire a good half length in the lead, Allie Hill second, Twist third; time 1:30½.

Immediately after the announcement of the result the judges called the rider of Fleet to the stand, and ordered that he be suspended from all United States race courses for one year for refusing to start in the race. An effort is being made to induce the judges to reconsider their action.

In this race the Mutuals paid $7.30 for $5.

The second race was a free for all trot, best three in five, the starters being C. Hastings' bay gelding, Lot Slocum; E. M. Railton's sorrel stallion, Como, and L. J. Rose's bay stallion, Stamboul.

Stamboul was the favorite, selling in the pools for $30 to $25 for Slocum, and $6 for Como.

The latter took the pole, Stamboul the middle, and Slocum the outside. The trio got away in good shape, Slocum taking the pole shortly after the first turn and reaching the quarter post in 34½, Stamboul a length behind, and Como a good third. The same order was maintained at the half, which was reached in 1:09½; and at the three-quarters in 1:45½. The gelding kept up his lick to the wire, finishing in 2:21¼, Stamboul second, Como third.

This was, by a second and a half, the fastest mile ever trotted by Slocum in public.

Mutuals paid $9.80 for $5.

In the second heat Slocum held the pole and worked his way to the quarter in 35, to the half in 1:11, and to the three-quarters in 1:46. On nearing the half post Stamboul, who had crowded the leader hard all the way down the back stretch, left his feet and would not settle until he had run nearly a sixteenth, when he was pulled down, only to fly off again at the home turn. Como cut little figure in the run for the wire, being two lengths away from the others, who strained every nerve in a head-and-head struggle for supremacy. As they passed under the string the stallion had a nose the best of it, but on account of his "bobble" on the upper turn, the heat was given to Slocum, who had performed his work honestly from start to finish.

Time, 2:23.

Mutuals paid $13.15 for $5.

Notwithstanding that Slocum had won two heats, Stamboul was still the favorite in the third, $30, $18 and $3 being the figures. This was attributable to the fact of Slocum's reputation for being a "quitter" after the first two heats. His next performance proved that he had not been slandered in this respect, for, though he had the pole, a shade the best of the start, and was the first horse all the way to the three-quarters, he weakened at the home stretch and his rival went to the front. Slocum had passed the quarter in 35, the half in 1:10¾, and the three-quarters in 1:48. Here he was forced to yield the palm, and Stamboul had things his own way, finishing in 2:25; Slocum second; Como third.

Mutuals paid $6.80 for $5.

Stamboul refused to relinquish the lead from the start to the finish in the fourth heat. He made the quarter in 36½, the half in 1:10¾, the three-quarters in 1:48, and finished in 2:27. Como second, Slocum third. Mutuals paid $7 10.

In the fifth, Slocum made one final effort and managed to hold the lead to the half. Here he "let go" and the spectators were surprised to see the hitherto insignificant Como spurt to the front. He fully maintained his reputation as a "stayer," and when he passed under the string Stamboul was four lengths back and Slocum away off. Time 2:29.

The speedy Stamboul had reckoned without his host in this heat, and he had it demonstrated, supposedly to his entire satisfaction, that it was necessary for him to attend strictly to business in order to take another heat. What had worn Slocum entirely out and badly winded Stamboul had only warmed the Como up. The driver of Stamboul understood this and by dint of his best efforts steered his horse under the wire first in the next heat, winning the heat, race and purse. Time 2:29.

The third event of the day was a mile dash, free for all, weight for age, purse $150. Dublin Bay, Adam and Jim Polk starting. Allie Hill was excused from this race by the Judges.

The three starters got a good send off and Dublin Bay and Adam went to the quarter and half in neck and neck order, Polk a fair third. Between the three-quarters and the home turn, however, the latter made one of his famous dashes and struck a lead which he held to the wire. Time, 1:45¾.

Sons of St. George.

An organization known as the Sons of St. George, composed of Englishmen and their descendants in this country, is about being instituted in this city during this week.

A lodge of this order was instituted in the city of San Francisco in January last, and although a new order on this coast, its increase in membership was very rapid, its popularity in a great measure arising from its social features. There have also been two other lodges organized since. One in Oakland and the other in San Francisco, which are both prospering, their united membership at the present time being about four hundred.

The objects of the society are social and beneficial and it is a first-class society in every respect.

The lodge about being instituted in this city is named Royal Oak No. 220, and was organized by Mr. T. Shooter, of 217 Temple street, of this city.

District Deputy Williams, of San Francisco, arrived yesterday to institute this lodge, which ceremony will take place tomorrow evening at 8 o'clock, at Caledonian Hall, 17 First street.

POLITICAL.

Ingersoll Favors Henry George.

ANTI-SALOON REPUBLICANS.

California Legislative Nominees—Democratic Rally at Arroya Grande.

[Special to the Herald by the Associated Press]

NEW YORK, October 13.—It seems probable that Abram S. Hewitt will accept Tammany Hall's nomination for Mayor. In case he does, the county Democracy will indorse the nomination, and the Democrats of New York will, for the first time in six years, present a united front. Bob Ingersoll has announced himself in favor of the election of Henry George. He advises the Republicans to indorse and vote for the labor candidate. It does not seem at all probable, however, that his advice will be heard.

ANTI-SALOON REPUBLICANS.

An Address Arraigning the Liquour Traffic in the States.

CHICAGO, October 13.—The following are the principal points in the address to the Republican party issued by the National Committee of anti-saloon Republicans, appointed at the conference held in Chicago on the 15th ult. After dwelling upon the magnitude which the liquor traffic has attained in America and its resulting evils, the address emphasizes its disastrous effect on the working classes, refers to crimes accruing from the non-operation of the prohibition laws, and says: The widespread violations of one set of wholesale laws breeds general contempt for all law, and opens hospitable doors to those modern allies of the saloon system, communism and anarchy. So the saloon power in the United States uses a corruption fund to carry the elections by the purchase of votes to obstruct the cause of justice, by tampering with juries, and punishing with defeat the public servants who have incurred its displeasure. The address declared that saloons ought to be put out of existence, and that until destroyed, saloons should be crippled by every restraint and disability which local public sentiment will make and enforce. The address insists that the Republican party is called to this work by attacking great wrongs consecutively; it has destroyed them in detail and at each success has prepared the people for another step, and the hour has struck for the next advance.

Senators Nominated.

SADINAS, October 13.—Sargent, of Monterey, to-day secured the Democratic nomination for joint Senator, and T. J. Field, also of Monterey, received the Republican nomination for the same position.

Bowers for Joint Senator.

SAN FRANCISCO, October 13.—The Democratic delegates to the joint legislative convention from the counties of Contra Costa and Marin have nominated ex-Superior Judge T. J. Bowers, of San Rafael, for joint Senator.

DOWN THE COAST.

The Democratic Boom Rolling Up Grandly.

[Special to the Herald.]

SANTA MONICA, October 13.—There was a grand excursion from San Luis Obispo to Arroya Grande Monday night to attend the speaking by J. D. Lynch, next Congressman from this district, and W. R. Jacobs, Esq., of Tulare. McCoy's military band of 25 pieces accompanied the party. Nearly every voter in this section regardless of politics attended the meeting and Lynch gained many a Republican vote to the party. He made a clear, concise and masterly speech, and the best posted men say we will carry the county by 200 majority.

He spoke last night at McMillan's Hall, in this city, to a large and enthusiastic audience. The Democratic pulse is beating very high in this neighborhood and the outlook is more than hopeful for the good cause.

Manning's Return to the Treasury.

WASHINGTON, October 13.—Secretary Manning arrived at the Treasury Department about noon to-day, and remained there for two hours. He had a conference with Assistant Secretarys Fairchild and Thompson, and a few other officials, in regard to the affairs of the department. He denied himself to general callers and gave particular instructions against the admission of office-seekers. He is not quite ready to assume active charge of the department, and Fairchild will continue to act as Secretary for several days yet.

A Narrow Escape.

As burglars had recently visited the drug store of Mr. Yorba, Mr. C. W. Sulzbach, his neighbor, armed himself with a club and pistol and placed himself in the rear of the store to watch for more burglars. On Tuesday night while watching for these most interesting visitors he discovered a man dodging up and down behind some barrels in the rear of the store and placing himself in readiness to shoot the fellow, called to him to know what he was about, and ordering him out of the place. The man behind the barrels told him it was none of his business what he was about and to go off and mind his own business. Sulzbach then determined to shoot when the fellow made a move, but when he spoke again he recognized the voice among the barrels as that of Yorba himself. It is needless to say that a fatal shooting affair was prevented and a hearty laugh by a duet was roundly performed.

FINANCE AND TRADE.

Government Bonds and Railway Shares.

NEW YORK, October 13. — Government bonds were dull and steady to-day.

The temper of stock speculating underwent a sudden change to-day, and instead of the hesitancy and caution that has been lately displayed, there was a rush to buy for an advance ranging from one-eighth to three-quarters per cent. Lakeshore, New York Central and Omaha showed the greatest advance. Trading during the morning hours was active and prices advanced almost without reaction until noon, when Lakeshore, Pacific Mail, Canada Southern, St. Paul, Michigan Central and Nickel Plate had made conspicuous gains. Some of the stocks were a little less active and somewhat feverish. The market subsided a very little just after noon and continued so until the last hour, when a general rise began with Manhattan as the chief feature. There was no reation to the rise until closing, at which time the market was active and strong at best prices of the day. No single active stock shows a decline to-night, and the gains range from one-half to two and seven-eighths on the general list, while Manhattan is up eleven per cent.

THE EYE, EAR AND HEART,

SUCCESSFULLY TREATED BY

M. Hilton Williams, M. D., M.C.P.S.O.

No. 275 North Main Street,

Next to Diamond House, Los Angeles, Cal.

All diseases of the respiratory organs treated by the most improved system of Medicated Inhalations, combined with constitutional remedies for the liver, blood, etc.

Nearly 75,000 cases successfully treated during the past 19 years for some form of head, throat or lung troubles.

CATARRH.

To all those who are afflicted with any of the different forms of catarrh we would say there is no disease which presents a greater diversity of symptoms—none more loathsome, insidious and dangerous—than Nasal Catarrh, especially if complicated, as it almost always is, even from its first appearance, with an affection of the throat.

From the earliest symptoms (which are generally attributed to "cold in the head") to the various ugly and distressing stages through which the disease passes, the patient is hopeful of recovery and rarely gives it proper attention until certain alarming systems present themselves, denoting unmistakably the rapid advance of the malady to the lungs. Indeed, so various are the symptoms that the presence of the disease is not always known, or even suspected, till it has reached the more advanced stages. The disease may or may not be attended by a discharge from the nostrils or the throat, but there is usually present a morbid secretion and a frequent disposition, especially in the morning, to clear the throat, and the effort to do so is often, though not always, attended by expectoration; there is a sensation of heaviness in the frontal part of the head, and the brain sometimes suffers to an extent producing headache, vertigo and confusion; it becomes difficult to think clearly and to concentrate the mind; the memory becomes impaired and the intellect enfeebled; despondency of spirits and an excitable condition of the nervous system. Such is the effect of the disease, and if to this train of symptoms (which not infrequently leads to insanity or idiocy) we add many of the more loathsome physical effects, such as caries, or rottenness of the bones of the face and head, a most offensive smell to the breath, and corrupt, morbid and poisoned secretions, destruction or serious injury to the senses of smell, hearing, sight and taste, we have a catalogue of horrors which should lead any person to make early and proper efforts to eradicate the disease while it is in a curable stage.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless the disease has advanced to the chest and that both lungs are seriously involved. The inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success.

The very best references from those already cured.

CONSULTATION FREE.

Those who desire to consult me in regard to their cases had better call at my office for consultation and examination, but if impossible to visit the office personally, may write for "List of Questions" and circular, both of which will be sent free of charge.

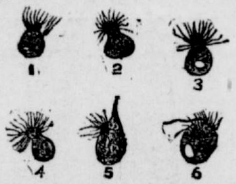
—BY—

W. N. DAVIS, M. D.,

45½ N. Spring St, Los Angeles, Cal.

The cut below shows the bacili or parasites which cause catarrh, magnified 480 times.



The Doctor devotes his treatment to the destruction of these by means of local remedies, which can be applied by the patient at home, without pain, inconvenience or detention from business. Constitutional remedies are employed in most cases to purify the blood, regulate the liver and build up the general system.

The best apparatus in the country is used to apply medicines directly to the sores or seat of inflammation at the office when necessary.

If patients can come regularly to office for treatment cases of forty years standing can in nearly every case be cured permanently.

Children can be treated with no trouble, and never yet has the doctor failed in a child where remedies have been used as directed.

The following testimonials of persons well known in Los Angeles will show the rapidity with which these diseases can be cured:

ART STUDIO, 211 S. Bunker Hill Avenue,
Los Angeles, May 25, 1886.

DR. W. N. DAVIS—Dear Sir: I am happy to inform you that your remedies have cured that terrible obstinate catarrh of the back part of the nostrils and throat, from which I suffered so much. It does not trouble me at all now and I have only taken your teatment about two months and a half.

Yours, gratefully, M. S. FISH.

This is to certify that I was troubled with Asthma and Bronchitis for one and a half years and was never entirely free at any time, till two months ago I put myself under the care of Dr. W. N Davis, when his inhalations gave me relief at once so that I could attend to my business as well as ever. I now believe that I am entirely cured.

H. J. DEO,
Ventura street and Vernon avenue.
Los Angeles, October 2, 1886.

DR. DAVIS:—If it were not for you I am satisfied that I would now be dead with lung disease, which had troubled me for two years, as at the time I commenced treatment last summer I was so low that I could not continue my trip East after starting, and was obliged to return from Mojave. I wish to testify that I was entirely cured in three months and found your charges very reasonable.

MRS. H. P. MURSEREAW,
22 Bernard street.
Los Angeles, February 3d, 1886.

Hundreds of other testimonials and references could be given were it necessary. As many as three persons have been cured in one family.

Electro-Magnetism, the New Means of Cure.

Dr. E. Robbins' Electro-Magnetic Institute, corner of First and Spring streets, entrance on First street, is now fitted up at considerable expense, with everything that is necessary to cure chronic and so-called incurable diseases, by the finest electrical apparatus in the world. Turkish and Russian baths; also electric, sulphur and eucalyptus baths. Dr. Robbins has had several year's experience in the Australian colonies, San Francisco, Salt Lake City, Denver, and four years in Los Angeles, and hundreds of leading citizens can testify to the wonderful effects of electricity in curing cases of chronic diseases when all else had failed, and therefore all persons suffering should try this new remedy before abandoning all hope. After every medical treatment the patients are given the Massage treatment by persons of their own sex. The doctor diagnoses diseases without explanation from the patient, free of charge. His office hours are 9 to 12, 1 to 5 and 7 to 9.

Coal, Coke, Charcoal and Wood.

The undersigned wholesales and retails all kinds of house, steam and blacksmith coal, foundry and gas coke and charcoal.

Also all kinds of wood in four-foot, two-foot and stove-wood lengths.

The above delivered to all parts of the city and county.

Special rates for carload lots and to dealers.

A Captain's Fortunate Discovery

Captain Coleman, schr. Weymouth, plying between Atlantic City and N Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose. Dr King's New Discovery is now the standard remedy in the Coleman household and on board the schooner.

Attention, Everybody!

A fine opportunity is offered for investment. I now offer for sale the entire property at Lang's Station, on S. P. R. R., forty-three miles from Los Angeles city, north, in Los Angeles county, consisting of the following: 240 acres of fine land with abundance of water to irrigate every foot every day of the year—never fails. Fountain head on the land and is located on the highest ground at the head of the ranch, where it can run in ditches all over the property, which it is doing at the present time, and besides this water there is about ten fine white sulphur springs on the place, admitted by every test to be the finest on the Coast. About twenty-five acres of bearing orchards, all kinds of fruits; one orchard thirteen years old. Everything very healthy. Never any scale bug known in this section. Vineyards, flower gardens, fine two-story hotel only two years built, neatly finished throughout. Depot, post-office, express and ticket offices here at hotel door. Schools convenient. No fogs. Altitude 1870 feet. Title to land, water and everything perfect. Am not particular about full payment down, as the property is good security. This is no doubt the finest opportunity in the State for establishing a large, paying and attractive health resort, the sulphur springs being in beautiful groves of very large growth, completely shading them. These springs boil up in plain sight, clear and sparkling as a diamond, beautiful to drink. During my sixteen years' residence right here at these springs, I have yet to find the first one coming here with asthma, dyspepsia, coughs, chills, liver complaints—almost anything not seated consumption—but left here entirely cured. I believe this the healthiest spot the sun shines on. Were I 25 years younger this property could not be bought for twice the amount I will take now, which is $25,000. Age demands of me retirement from an active business life, hence for the first time I offer to sell. Now let no one think this is a speculation on my part. I have an adjoining ranch where I intend spending the balance of my life privately, on account of health, believing I will live to a greater age.

Address all communications to the proprietor.

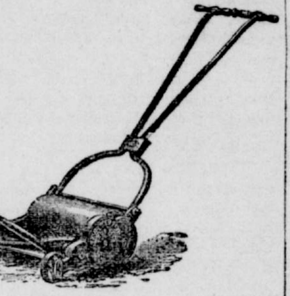
HARPER & REYNOLDS CO.,
48 & 50 N. MAIN ST.



The New Hammam Baths,
76 and 78 South Main Street, Los Angeles,

Have changed hands and are now under new management, whose aim it will be to make them what they should be, viz: a LUXURY as well as a source of health to the public. This establishment is the only one of the kind in Southern California, and at no other place on the coast (outside of San Francisco) can Turkish, Russian, Roman, Electric, Medicated, Sulphur, Vapor, Mercurial, Plunge and Other Baths be had as they are given at this place. We have the most polite and experienced attendants, the most luxurious rooms for a quiet rest after the bath, and can accommodate any number of gentlemen who desire to remain all night and at no further charge. The Ladies' Department is on the second floor, is as private as any lady's home could be made, and for comfort, privacy and good accommodation is not surpassed.

The White Scale!

I am prepared to spray orchards of from ten to 10,000 trees, at the earliest date, with my patent scale killer. I warrant it to kill the white cottony, red, black and San Jose scales, also the Woolly Aphis, without injury to the blossoms, fruit or tree. It does not drop a leaf nor the young fruit and leaves no disagreeable odor, like the whale oil. Parties desiring orchards sprayed will find it to their interest to call and see my work.

The Contrast.

YEAR.	PARTY.	STATE AND COUNTY TAXES
1884-5	Dem.	$361,000
1885-6	Rep.	733,000

Increase first year of Republican party in power, $372,000; per cent. of increase, 203, nearly. Result—no roads, no buildings, nothing.

Temporary Retirement.

During the current canvass Mr. Joseph D. Lynch, the Democratic nominee for Congress, in the Sixth District, will surrender the editorial supervision of the HERALD.

THE usual incident of prosperous times in the United States, viz.: A very large immigration from Europe, is observable at the moment. The arrivals at New York for last August were nearly fifty per cent. greater than they were in the same month a year ago.

THE last House of Representatives, which had a clear Democratic majority, passed no less than nine bills in favor of labor and the wage-winners. That is more than the Republican party did in the twenty-five years of their power to help the cause of American labor.

A COUPLE of our local contemporaries have reported that "Lieutenant-Governor Daggett (Democratic)" would address the American Party in this city at an early day. Not "our John," the Lieutenant-Governor, if you please. The Daggett meant is a lawyer who lives in Tulare county.

IN Fresno, efforts are making, and Democrats are lending themselves to these efforts, to elect Republicans to the Legislature. Any concessions as to county offices are obtainable "on this lay." Take timely warning! Beware! and lend no hand to elect Sargent to the United States Senate.

THE San Bernardino *Courier*, a new Democratic daily published at that city, is a very neat, sprightly and enterprising journal. The fact that it is edited by Mr. Arthur Kearny is a guarantee that the paper will be held in all respects on the very highest plane of modern journalism. The HERALD sends the very best of good wishes to the new venture.

JUDGE HAGER has been Collector of the port of San Francisco just one year. During the last year of Sear's tenure of office the expenses were over $27,000. During Hager's first year they have been a trifle over $17,000. The people have saved in absolute figures more than $10,000, and in ratio nearly twenty-five per cent. a year, by the honesty and efficiency of the Democratic official. It is about the same thing everywhere.

IT is reported by all who come from that place, that the building boom in San Diego is something unprecedented in its extent. The new houses going up there are said to be very elegant in style and costly in construction. That city is experiencing at last the prosperity for which it has waited so long. The growth of San Diego city is founded on the proper basis, the development of the country around. Prosperity founded on material, local development always comes to stay.

BEFORE Cleveland's election the cry was that business would come to an abrupt standstill if the Democrats succeeded in laying hold of the reins of government. The Vanderbilts, Goulds, and all their class joined in this cry. The Democratic President has been in office for 20 months, and the country is more prosperous to-day than it has been since 1860. With each day of economical, honest government this goes on and increases. It will still improve into a genuine business boom.

FOR the second time since the campaign opened, the HERALD to-day finishes its altogether pleasing task of presenting to the voters of the county the names and records of the candidates for county offices proper. Looking back over the list and recalling what has been said, one is more and more deeply impressed with the excellence of the choice made by the Convention in all cases. There is not a man on that list whose record for private cleanliness of life, for public integrity in their trusts, for business honesty in their affairs with their fellow men, may not be probed to the very quick, and it will be found sound all the way through. These men are as competent as they are clean and honest. They meet in a perfect degree all the Jeffersonian requirements — Sobriety, Honesty, Industry. The people of the county will honor themselves by honoring these men with the important trusts of office.

THE Sixth District Fair, now in full blast, is a very important thing to this section. As conducted, while not as it should be, it is a great aid in the development of the county, and of prime interest to the city of Los Angeles. It is, too, a matter in which the directors past and present may justly take great pride. To those who have for years consented to take charge of this great interest it has been a great care, a most thankless task, and a big expense. Had they been less faithful, wise and persistent, the matter would have been dropped long ago.

The people generally have never half realized what an important matter it was to them, and consequently it has been kept alive by the most energetic efforts in the face of downright discouragement. All it needs now to make it a most pronounced feature of our local development, is for the farmers to back liberally the efforts of the directors. They should bring into the fair exhibits of all their productions. Liberal purses should be subscribed to the most successful exhibitors. In this way our horses, cattle, sheep, hogs, poultry; our vegetable productions of all sorts, and our fruits will be greatly improved in the future as they have been in the past, through the instrumentality of this friendly rivalry brought out at the annual fair.

In spite of a lack of interest on the part of the masses of our farmers, there has been a steady improvement in the fair year by year. The present exhibits of all sorts and all the other features of the fair are a decided improvement on what has been seen in the past.

T. S. SHAW, the Democratic nominee for School Superintendent, is making hosts of friends in the county. Professor Shaw is a great favorite with the teachers of this section to whom he is personally known. In the districts where he has taught he is endeared to his pupils and their parents to no ordinary degree. As a teacher Mr. Shaw has few equals in the county. He is a finished scholar, and speaks with a fluency and precision rarely heard. In the duties of teaching he is at home at all points. Of large experience, clear mind and great industry, his efforts in this profession have been eminently successful. In Professor Shaw the county will have a most painstaking, competent and affable Superintendent.

A. R. Street, the next County Surveyor, since his advent to Los Angeles has made friends at a very rapid rate. In the duties of his profession he is known to be thoroughly competent. All who have entrusted work to his hands have found it done with a precision and cleverness which establishes him in their minds as eminently trustworthy in all respects.

A professional man, Street's sympathies are thoroughly Democratic. He has none of the latter-day nonsense about him as to class distinctions among the people of a Republic like ours. He is heart and soul with the toiling masses in their struggles and aspirations for material and mental uplifting. True workingmen in all parts of the county, if true to their own interests and their own friends, will cast a solid vote for Street, and for that matter, for the whole ticket.

The Democratic nominee for Coroner is R. C. Guirado. He is a man of the very highest standing in the community. He comes from one of the oldest and most highly respectable Spanish-American families in California, and is well known here as an upright and honorable business man. The office of Coroner is one of no small importance. It duties call for much experience, and the man who performs this duty should be one of unquestioned probity. These qualifications are all found in a pre-eminent degree in the person of Dr. Guirado. In his election the people will secure an ornament to the official list of the county. He is a man thoroughly fitted for the place.

The lower end of the county ticket proper is guarded by one of the strongest names in the list—A. M. Bragg, the candidate for Public Administrator. Bragg is an old-timer, and is known in every precinct in the county. If there is one where he is not generally, personally known, that defect is in a sure way of remedy. The sterling old war-horse is making a splendid canvass of the county, and will be seen by most of the voters before election day dawns brightly and auspiciously for the big Democratic victory impending. Bragg will not only be elected himself, but he will win votes all the way along for the entire State and County ticket. The county made no mistake in his nomitation.

VOTERS must not forget that on the second day of next November, in addition to the vote for State and county officers, they will be called on to express their views on the very important question of the "Heath Amendment" to the Constitution. There is little doubt that the Democratic vote will be solid against the proposition. It would be a little difficult to show why a millionaire corporation is to be allowed to make its own rating of its property, any more than the poor man who owns the little house whose roof shelters his family, or the little farm from which he obtains the family's support. But Republicans never trouble themselves to explain anything. With them it is a party measure, and that makes anything right in their eyes. Vote No!—a big No with the exclamation point after it, on that proposition. Do not forget to put the no after that question on the ticket.

It is altogether certain that all over the State, in every precinct, the Democratic ticket will save voters the trouble of writing the word "no" opposite the "Heath Amendment." We respectfully suggest this to those who prepare the "copy" for the Democratic tickets, that they be so printed. It will have a consistent, business look about it—

"For the Heath Amendment—No!"

This will be a very gracious act to the thousands of Republicans who are going to vote the Democratic ticket this time anyway. Then, to those who are in doubt as to this course, we may be allowed to suggest that when they come to this point, they will find that feature embodied in print in the Democratic ticket, and that if they be really in earnest in their professed desire to assess rich and poor alike, the best way to secure this is to vote the entire Democratic ticket. By this course they will secure sincere officials to carry their desire into effect.

There is another subject which the voters of this county shall be called upon to express their view upon. That is the Court House bonds. On this point, the proper Democratic course is to vote "Yes." The county needs a county building. Her archives are not safe as they are now kept. Besides the Supervisors express their intention to levy a tax for this purpose if the bonds are voted down. This would throw the whole burden of the Court House on tax-payers at once, whereas the bonds will be paid partly by the future. The country is where the bonds may meet the most opposition. Now here the interest of the country is plainly to vote for the bonds. If a tax is levied it is paid out of hand, and it is doubtful if the tax-payers inside the bounds of a new county would ever recover anything for the Court House. If, on the contrary, bonds are voted to run twenty years, and the county is divided within that time, the old county which has the Court House would be obliged to shoulder all these bonds.

Each voter in the county regardless of party wants to be sure his ticket bears a big No against the Heath Amendment, and a big Yes for the Court House bonds.

BRONZED WARRIORS

Returning Home After a Long Campaign.

The 2nd Batallion of the 2nd U. S. Cavalry composed of troops A and K, which left the Presidio, at San Francisco, in December last to join, under direct orders from the President of the United States, the soldiers engaged in the Apache campaign, arrived here yesterday; in four special cars for the officers and men, beside several box cars containing their horses. The batallion is composed of 112 men and 94 horses, and is commanded by Capt. MacAdams. With him are Capt. C. C. Doane, First Lieutenant F. U. Robinson, Second Lieutenant Bean and Acting Assistant Surgeon W. Craig. During their long campaign, whilst hunting Geronimo and his wily bucks the command suffered great hardships, traveling by forced marches over a great and broken extent of territory, robbed of sleep and rest, and glad many a time to have at least bread to still the cravings of a hungry stomach. Capt. MacAdams spoke in the highest terms of praise of his men whom, he said, he had found cheerful, willing, obedient and brave throughout their several months of chase through one of the most broken and rugged, steep and mountainous countries in which it has been the misfortune of a white trained soldier to have had to follow a red barbarous guerrilla. Capt. MacAdams is not a novice in the art of warfare. He was born at Quebec, Canada, and at the beginning of the civil war joined the U. S Volunteer army with which he served until the close of the war, when, having been offered a Second Lieutenancy in the regular army, he accepted the same, since which time he has ever been a cavalry officer. After the surrender of Geronimo, the second batallion of the 2nd Cavalry was ordered to Fort Lowell to await orders. San Diego has long been desirous of having the military post there occupied by cavalry instead of infantry, owing to her close proximity to the border of Lower California, which in a case of emergency could be better guarded by mounted troops than by foot soldiers. Pressure was made to bear and the War Department gave orders for the batallion to proceed to the city of the lovely bay and the balmy climate. Unfortunately counter orders were received before the start and the troops were directed to proceed to San Francisco, where they are going to now, much to the disappointment of the gallant Captain, his officers and entire command. The horses were given a full day of rest yesterday in the hills back of the Catholic cemetery and the men were also allowed to recuperate. This morning at six o'clock the soldiers proceeded on their way.

ADDRESS OF L. J. ROSE,

Delivered Before the Sixth District Agricultural Society, October 12, 1886.

LADIES AND GENTLEMEN:—We are again assembled to open the annual return of our Fair, and each return is witnessed by increased prosperity and progress. We may not see all the well-known faces of the past, but where, now and then, one has dropped away, ten more bright and buoyant ones have taken their places. We have much to be gratified at and to be thankful for in the year that has passed. When other parts of our country, and the world, have been visited by earthquakes cyclones, floods and storms, our own state and district have been favored by an abundant rainfall, but not excessive, by sunny days and temperate warmth. All the products of our soil have been fully up to the normal condition of quantity and quality to gladden the heart of the fruit-grower or husbandman. Our section has added at least 25 per cent to its population, and the values of real estate have almost doubled.

This, we, that live here, understand, for we know the conditions that are the cause of this marvellous growth. Three hundred days in the year, or more, we know that the sun will shine in an unclouded sky, and every night in the year will be cool enough to make a blanket for cover a necessity. We, too, have a soil that is most fertile, and grows a larger variety of products than any country in the world. The fruits of northern and southern lands grow with us in equal perfection, and are the envy and admiration of connoiseurs of either locality. It will be appropriate for me to say something here about the oranges, about organizations of the growers for the purpose of placing it on the market in its most attractive form, for the purpose of its intelligent distribution, that is guarding against over shipping any to one locality, for the purpose of getting the most favorable freight rates and other objects, such as finding the best markets, the best varieties to grow, etc. You are aware that for the past year we had an association known as the Orange Protective Union and I can say to you now that it has closed its year's work to the satisfaction of all that were its members, that it had a marked influence on the price of oranges, is an admitted fact by even those that were not members; that the distribution was an improvement on all former efforts is too admitted; that its working in all its details can be improved is equally true; for one year's experience has taught us many things by which we can profit in the future, and we can do better service with reduced expenditure for the future. There is a meeting called of all the orange growers of Southern California here in Los Angeles the 10th of November, and if all the growers are true to themselves by their attendance and favoring a new organization for the coming year, then the assurance is certain for good prices and prosperity. In union there is strength, is an old saying, and in nothing does it hold as surely as in this. You can each see for yourself that we will be a power that will command respect and consideration from all transportation companies, and may expect the most favorable freight rates that can be obtained. By combination, too, we can obtain the best prices, for we will be in unison, and not competing, one grower against another; and it is believed, judging from last year's experience, that we can sell all of our oranges right here for cash, instead of running the gauntlet of the varying returns of a commission business. Now, all of this you can have for very little—if any—outlay of money, and all that is required is simply that you take enough interest in your own affairs to attend our meeting, help organize and stand by your organization. For the last year none of the members have been required to pay anything, but have had money returned them by reason of being organized, and thus getting more favorable freight rates.

There is a singular condition of affairs at this time in this county. In face of a fact, with but a moderate supply of wine and brandy on hand, and with only, perhaps, a short crop of grapes in the State, yet the price of grapes is a very low one here. There are two reasons for this. First, there has been an ill-advised assessment by the revenue department against nearly all of the distillers of Los Angeles county. This assessment is not based on any known fact; it is not based upon any brandy found which has not paid revenue: but upon the supposition that more brandy might or could have been made. We are simply charged for having made brandy and if we did not make it we should have done so, is what the revenue department says, and that we have no brandy to show for it, has nothing to do with it. We are demanded to pay or prove a negative, prove that we did not make it. Instead of every man being innocent in the eyes of the law until proven guilty, we are adjudged guilty and the burden of proof falls on us to show that we are innocent. This has caused all distillers much anxiety and has created a fear which prevents them from desiring to assume additional risks by buying grapes, for if such assessment can be made to day, may be repealed to-morrow, and so on until ruin is the outcome and end of all.

The second reason is that grape-growers in this country have relied too much on selling their grapes to a few manufacturers. The planting of grapes, owing to the favorable condition of our climate and soil, and the certainty of an ever abundant yield of perfect grapes, has gone forward with every year's increased momentum; whereas the manufacturers, the plants to convert them into wine and brandy are almost stationary until the production of grapes is in excess of the demand of those that wish to manufacture them into wine. This being the fact only one result could follow, a low price for grapes. Now this fluctuating price, from a fair one to the grower, say $20 per ton to a low and discouraging one, is a misfortune to both growers and manufacturers, and has done more to injure the wine business in this county than any other circumstance. This is the weakness now in our grape industry, and it will rectify itself only by every neighborhood, or each for him self, preparing to make their own wine and brandy, for when so converted it becomes a staple product which will keep and improve by age, and take the general price that the world fixes—and not be subject to the violent fluctuations which always attend perishable articles. To me there is always this satisfactory assurance; first, that we can raise more and better grapes in California with the same amount of labor and outlay of money than in any part of the world; second, that California can, and does make a better average quality of product, wine and brandy, than even France or Germany. Already there has been an enquiry by an association of capital, whether contracts could be made by principal brandy distillers to make contracts for ten years for all the brandy that could be produced, for the purpose of selling it in the English markets, nor is this strange when you think about it and remember that a pure brandy is almost unknown, except in California.

Again, there are some efforts made by the people of California in legislation, and with flattering prospects of success. I mean the "Spurious-Wine" bill and free fortification of our sweet wines. The first bill has for its object the stamping of all fictitious wines and compounds with a revenue stamp. This stamp will set forth, and must do so truly, or it will be confiscate by the ingredients which constituted such a beverage. You can see it at once, that this will end all sales as wine, except pure wine made from grapes, for that will be free from any stamps, thus designating at a glance the pure wine from the adulterated. This will not only stop the sale of the one, but the confidence to each consumer of wine, with the certainty before him that it is pure, will double consumption at once. The first resolution formulated about this measure was introduced by me in our board of viticulture, and that board, through its chief executive, Mr. Wetmore, has worked hard and faithfully to make it a law, and it is the belief of Governor Stanford and our whole Pacific coast delegation that we will succeed, for it is just and right, and the only objection that can be urged against us is by those who wish for crooked methods, for it simply gives to each its due, and every article stands on its own true merits.

The bills allowing the free fortification with brandy made from grapes to make port, angelica, sherry and like wines will add much benefit to our grape industry, for it not only allows this for ourselves, but it permits us to place our brandy in bond and sell it to wine makers without paying the tax of 90 cents a gallon to our eastern brothers engaged in making wine, for they will need our brandy to fortify their wines, for they cannot by reason of the enhanced cost of growing their grapes, afford to make brandy for their own use. This would make a demand for a variously estimated quantity from one hundred to two hundred thousand gallons of brandy; nor is the gain to us any loss to these; it is a gain for those also, for they can buy it cheaper than they can produce it for themselves; nor is it any injury to any one, for it only makes it possible for us to make a pure and genuine product for the consumption of a healthful wine, which will take the place of a spurious article imported from France mainly, for that country by long experience in blending and compounding, and by reason of getting free-corn spirits from us which they use without having to pay the revenue tax can sell it back in their compounds and undersell us.

Besides, it is now the desire of both political parties to reduce the revenue, and many expedients are suggested. Here is a case where if we do not produce an article which is admitted better than the imported by reason of its purity, will be furnished by foreign countries, whereas if produced here it lends aid to the prosperity of the most charming agricultural industry in the world and giving employment to thousands of refined and contented fruit growers. The bill has passed the Senate, and it is believed will pass the House at next session of Congress. When passed it will add much value to every vineyard in this State. Senator Stanford places the increased value to every vineyard at 25 per cent. There has been much said in the cause of temperance. Its evils have been painted by the master-minds, and not in too vivid colors, and I believe and feel with all advocates of that cause. I, however, differ in the remedy, for I do not believe that total abstinence will ever work the cure aimed at. It will not do either for one to judge the other by himself. What is necessary for one, or what may not be required by one is a necessity for another. The general man requires a stimulant. In women we find this desire finds vent in the tea cup. Man finds it in wine, whiskey, brandy. The barbarian or the highest civilization indulge in some form of stimulant. The German drinks wine and beer, the Frenchman almost wholly wine. These are the products of their country. Both fashion and self-interest recommend their use, and it is a fact that drunkenness and the accompanying evils and excesses are unknown. America is the land of whiskey. Beer is an innovation, wine yet a luxury; but time will bring about, as it is fast doing, a change; and if the temperance advocates would bring their energies to bear in advocating the drinking of pure, dry, light wines the reformation that would be accomplished would far exceed the good now accomplished. But I am going from the subject. I wish to sing the praise of our delightful country, and not its prosy moralizing.

When we claim that we excell in the production of fruit and flowers—also corn, hay, barley, etc.—the products of the garden should not be forgotten. We have advantages here by reason of our climate making it possible to grow various products every month in the year, enables us to grow produce for less favored localities and furnish them at times in the year when no such article can be had. It may surprise many of my hearers that a large business has sprung up in vegtables, like lettuce, radishes, potatoes, onions, asparagus, and especially cabbages, and that many carloads are annually shipped from California and from this county. Nor is the vegetable world the only one where we can claim excellence. Our animal productions promise to be fully abreast with it. Take the horse, for he can be measured by a rule that no one can cavil at that is his speed as measured by the best. Take Mr. Baldwin's stable of thoroughbreds, now in the east, perhaps a dozen in number, and all of his own raising, and by the daily telegrams you read of his victories against the combined stables of the east, meeting the best from Kentucky, New York and all the other States, even competing against California horses, and his success is far beyond that of any other stable with a like number of horses—and all his own rearing is in our own county. Again, take my own stable, and there, with all my own raising in our county; the four year-old Stamboul won all the four-year-old stakes in the State; the three-year-old Alcazar won all but one of the three-year old stakes and purses, and Soudan, a two-year-old, won two out of five starts. It may be charged that we are boasting, but are we? Is it not true what is claimed? It may sound fabulous, but I have no desire to tone down facts to make them sound true. It is not in a spirit of envy or to make odious comparisons that I speak. I do it to teach the many young and bright faces that are before me the good fortune that is about them, and to create a desire to improve these exceptional opportunities. That all this State has a great, prosperous future is an assured fact. We wish it so. There is no "pent-up Utica that contracts our powers;" we are content with what we have. We feel that we have as favored a land as the sun ever shone on, and that our productions are the equal of any other locality. I have seen all the principal exhibits made in this State of agricultural products and fruits; have seen the favored products from Placer, and other favored mountain localities. But we, too, have our mountain sides. We have shaded nooks in which fairies would delight to hold their revels. We have beautiful mountain cañons with here and there a widening vista, where grow fruits, fit offerings for the gods, and the equal of any wherever grown. Places where mountain streams in all their limpid purity, here tumble and foam over blue granite rocks, or finding less declivity smoothly flowing onward, only now and then broken by the play of some trout in search of his evening meal and mirror like reflecting the foliage of the arching branches of the sycamore, the alder, the cottonwood or the willow, while the slopes on either side of the mountain are clothed with various species of the pine.

I would not give much for a man who with such beautiful surroundings, would, not get enthusiastic and sing the praise of such a country and feel "Home feeling of my heart linger around me still."

A Farmer's Reasons for Supporting J. D. Lynch for Congress.

EDITOR HERALD: I am a farmer, and as such, deeply interested in the election of a good member of Congress from this district. I wish to impress upon my brother farmers good reasons why we should join, irrespective of party, in electing Joseph D. Lynch. In the first place he has studied the agricultural question until he has mastered all its details. He has made it a practice for many years to drive out among the farmers during seed time and harvest and get their views upon the capabilities of the soil, and the best crops to sow. He has kept himself well posted upon the crops in other parts of the world, and upon the markets of the world, and thus has been able to give the many farmers who read the HERALD, the views of other farmers, and also to keep them well informed of the prices of their products in the great marts of the universe. When Mr. Lynch came to Los Angeles, twelve years ago, farming was in its infancy in this county. The great ranches whereon are now grown immense crops of wheat and barley were then given up to the pasturage of sheep and cattle. It was the almost universal belief that nothing could be raised without irrigatiod. Mr. Lynch always insisted that with thorough cultivation not only crops, but fruit trees could be successfully grown on our mesa lands without artificial irrigation. When the dry season of 1876-77 came, and the failure of the Bank of California and Temple's Bank brought ruin to many, and for a time seemed to all the industries of the State; when the voice of the "croaker" was heard in the land asserting that Southern California was but a desert, and that Los Angeles had seen her best days, then Mr. Lynch's paper advised the farmers to make no sacrifice of their farms as many proposed doing. Mr. Lynch had been in California longer than most of his readers. He told them that dry years were of rare occarrence, and that tree planting and cultivation of the soil would make them still rarer. During this season of depression some farmers sold out and left the State in disgust. Others profited by the advice given them; and to-day see Mr. Lynch's predictions more than fulfilled. He has been first, last and all the time the able and energetic advocate of the rights of Southern California. His writings have brought thousands of good citizens to our sunny coast. He understands, better than any man in the State, the vast resources of California, and the capabilities of our soil. He knows the need of Southern California for Congressional aid to improve our harbors and roadsteads. He is, like every one of us, a workingman. He came to Los Angeles with but little money, yet in a few years he has, with indomitable energy and pluck, built up the HERALD from a very feeble journal to one of the foremost papers in the State, and from which he now draws a handsome income. Mr. Lynch is a man of marked ability, a good speaker and one of the ablest newspaper writers in the United States. He knows our wants, and can present them intelligently and forcibly in Congress, and his untiring energy will overcome all difficulties. It is largely owing to Mr. Lynch's writings in the HERALD that Los Angeles city has grown to so great a size that she within herself consumes nearly all the products we raise; and it would be but fair that we should in return elect him to the only office he has ever asked at our hands, especially when it is so manifestly our interest to do so.

Do not infer from what I have written that I am a Democrat for I am not. I am, what I think every farmer should be, perfectly independent in politics. I believe in supporting the *best* men for office, irrespective of party. Farmers have more at stake than politicians have, and cannot afford to be bound down to any party or any ticket. Believing this, and knowing that in Joseph D Lynch the farmers of Southern California have always had, and always will have, an able, honest and unflinching friend, I ask them all to assist me in electing him.

FARMER.

More Scared than Hurt.

The report last week that there was danger at San Pedro from the strike of the Sailors' Union has been investigated by a representative of the HERALD, and found to be without foundation of any kind. There was no violence nor offers of violence to any body.

Constable Friis says he has no need of deputy sheriffs to preserve order, for he can do that himself, and all who know him think he can.

Busted Again.

The repairs on the landslide at the Cajon cut, on the line of the California Southern, were nearly completed yesterday afternoon, when a new landslide took place. From a gentleman, who was at the cut at the time of the second cave-in, it is learned that a very large amount of dirt fell once more on the track, which will necessitate at least a weeks' work, before it is all cleared.

200 Building Lots!

—IN THE—

TOWN OF NEWHALL

The town of Newhall is 30 miles north of Los Angeles, on the S. P. R. R.; is the junction of S. P. R. R. branch, which is already constructed 10 miles and being pushed rapidly with a force of 500 men.

Amongst the improvements of the town is the Southern Hotel, livery stable, two general merchandise stores, postoffice, express office, fine two-story school, restaurants, markets, large depot, warehouse, etc.

The water supply is by far ahead of any interior town on the line of the railroad between Los Angeles and Fresno.

The soil is the richest and best to be found anywhere, and only needs the handiwork of man to grow.

The soil is a rich sedimentary deposit, suitable for growing all kinds of fruits, vegetables, etc., while the altitude of 1300 feet ripens all fruits much earlier than other lands in Los Angeles county.

The Boom in Colton.

The Semi-Tropic of the 11th has the following items of interest: We learn from good authority that the S. P. R. R. Co. has secured control of the San Gabriel Valley Railroad, that it will come to Colton and go across the mountains to San Jacinto.

We have reliable information that the Southern Pacific Railroad Company will shortly put on another fast passenger train between Los Angeles and Colton, to leave Los Angeles in the morning about 8 A. M. and run to San Gorgonio, and from there returning to Los Angeles in the evening about 6 P. M. The coaches are already built and are of the most elegant description, fitted up in Pullman style. This means a railroad to San Jacinto.

The S. P. R. R. Co. will this week put on the Colton route a splendid outfit consisting of two of the most elegant new passenger coaches, finished in Pullman style, and a new and elegant baggage car. The Colton motor road will make close connection with this new train this winter, and the San Bernardino, Colton and Riverside folks can go to Los Angeles in style.

Hi Dustin informs us that it snowed heavily at Cajon Pass during the transportation of the mails on Sunday. Frost in the mountains during the summer nights is no uncommon, but a snow storm at this season seems to be portentous of a heavy winter.

On Saturday Mr. T. L. Harris, who was blasting at Slover for the S. P. R. R. Co., had one of his fingers severely hurt from a mis stroke of a sledge-hammer while holding a drill for a cross-eyed striker.

The Los Angeles syndicate that bought 400 lots in this town last spring, consisting of the fine property on the terrace, are all wide-awake, go-ahead business men—men who have always made a success of everything they have touched. They represent an aggregate capital of $10,000,000. It was a bright day for Colton when these far-seeing and sagacious capitalists put $20,000 of their coin into Colton lots. Members of the syndicate consisting of Messrs. Maybery, Judson, Stinson and Risley, came in on the train this morning, and have been examining water property to-day with a view of piping an abundant supply of water to their lands and for the people of this city. The work will be done at once, and the property of every person in this city will thereby be enhanced in value at least 50 per cent.

It is rumored that the syndicate will commence the erection of about twenty-five dwellings on their property to be ready before December 1, at which time the whole property will be put on the market on the same plan as the recent successful electric homestead sale in Los Angeles. They will go off like hot cakes.

Storm Signals.

As the coming of a great storm is heralded by the display of cautionary signals, so is the approach of cautionary signals, so is Consumption of the Lungs, usually announced in advance by pimples, blotches, eruptions, ulcers, glandular swellings, and kindred *outward* manifestations of the internal blood poison, which, if not promptly expelled from the system, attacks the delicate tissues of the lungs, causing them to ulcerate and break down. Dr. Pierce's "Golden Medical Discovery" is the great remedy for this, as for all diseases having their origin in bad blood. It improves the appetite and digestion, increases nutrition and builds up the wasted system.

If bilious or suffering from impurity of blood, or weak lungs, and fear of consumption (scrofulous disease of the lungs) take Dr. Pierce's "Golden Medical Discovery," and it will cure you. By druggists.

Young or middle-aged men suffering from nervous debility or kindred affections, should send with 10 cents in stamps for large treatise, World's Dispensary Medical Association, Buffalo, N. Y.

A Desirable Recipe.

In Sacramento county, says the Record-Union, resides a lady who is locally famous for the excellence of her make of jams, jellies, pickles and chow-chow. The goods of her manufacture were on the market as long as she desired, and were always eagerly purchased. In recent years she has not cared to manufacture much for sale. Recently, by solicitation, she gave several ladies her method of making chow chow, and these, to oblige others, desire the recipe to be published. While it is true that with every housewife, in her skill in the art of cookery there is something that can't be conveyed, a knowledge gained by experience of how to produce results that she cannot explain, and in which she cannot instruct others, still a recital of her methods may lead others into equally happy results after some experimental effort. The chow-chow of Mrs. H. is thus made: Two dozen large green tomatoes, one large red onion; slice; green peppers, a half dozen; mix, salt and let stand four hours. Then spread and drain four hours. Put in a porcelain pot and pour over enough white-wine vinegar to cover, with one cup of brown sugar, one large tablespoonful of ground mustard, two tablespoonfuls white mustard seed, one teaspoonful celery seed, one tablespoonful ground mace. Boil all in a porcelain pot thoroughly. Seal hot.

WORTHY
Of Confidence.

AYER'S Sarsaparilla is a medicine that, during nearly 40 years, in all parts of the world, has proved its efficacy as the best blood alterative known to medical science.

SARSAPARILLA (extracted from the root of the genuine Honduras Sarsaparilla) is its base, and its powers are enhanced by the extracts of Yellow Dock and Stillingia, the Iodides of Potassium and Iron, and other potent ingredients.

IS your blood vitiated by derangements of the digestive and assimilatory functions? is it tainted by Scrofula? or does it contain the poison of Mercury or Contagious Disease?

THE leading physicians of the United States, who know the composition of AYER'S SARSAPARILLA, say that nothing else so good for the purification of the blood is within the range of pharmacy.

ONLY by the use of this remedy is it possible for a person who has corrupted blood to attain sound health and prevent transmission of the destructive taint to posterity.

THOROUGHLY effective renovation of the system must include not only the removal of corruption from the blood, but its enrichment and the strengthening of the vital organs.

RELIABLE witnesses, all over the world, testify that this work is better accomplished by AYER'S SARSAPARILLA than by any other remedy.

BLOOD that is corrupted through disease is made pure, and blood weakened through diminution of the red corpuscles is made strong, by AYER'S SARSAPARILLA.

PURIFYING the blood and building up the system require time in serious cases, but benefit will be derived from the use of AYER'S SARSAPARILLA more speedily than from anything else.

MEDICINE for which like effects are falsely claimed, is abundant in the market, under many names, but the only preparation that has stood the test of time, and proved worthy of the world's confidence, is

Ayer's Sarsaparilla,

Proclamation.

STATE OF CALIFORNIA,
EXECUTIVE DEPARTMENT,
SACRAMENTO, July 31, 1886.

WHEREAS, THE LEGISLATURE OF THE State of California at its Twenty-sixth Session, beginning on the fifth day of January, A. D. eighteen hundred and eighty-five, two-thirds of all the members elected to each of the two Houses of said Legislature voting in favor thereof, proposed the following amendment of Sections One, Eight, Ten and Eleven of Article Thirteen, of the Constitution of the State of California:

AMENDMENT NUMBER ONE.

SECTION 1. All property in the State, except railroads, not exempt under the laws of the United States, shall be taxed in proportion to its value, to be ascertained as provided by law. The word property, as used in this article and section, is hereby declared to include moneys, credits, bonds, stocks, dues, franchises and all other matters and things, real, personal and mixed, capable of private ownership; *provided*, that growing crops, property used exclusively for public schools, and such as may belong to the United States, this State, or any county or municipal corporation within this State, shall be exempt from taxation. Growing vines and fruit trees shall be deemed to be and shall be assessed and taxed as a part of the realty; and, *provided further*, that railroads shall be taxed as provided in Section Ten of this article; and, *provided further*, that the Legislature may provide for the exemption from taxation of ships and vessels owned and registered or enrolled in this State, or may tax such ships and vessels on their gross or net earnings, in lieu of an ad valorem tax. The Legislature may also provide, except in case of credits secured by mortgage or trust deed, for a deduction from credits of debts due to bona fide residents of this State. Double taxation in any form is prohibited.

SEC. 8. The Legislature shall, by law, require each taxpayer in this State to make and deliver to the County Assessor, annually, a statement under oath, setting forth specifically all property, real and personal except railroad property, as defined in Section Ten of this article, owned by such taxpayer, or in his possession or under his control, at twelve o'clock, meridian, on the first Monday in March.

SEC. 10. All property, except railroad property, as hereinafter provided, shall be assessed in the county, city, city and county, town, township, or district in which it is situated, in the manner provided by law. Every corporation and person owning or operating a railroad, or any portion thereof, in this State, shall, on or before the first day of July of each year, pay to the State Treasurer an annual tax of two and a half per cent. upon the gross earnings, earned within this State, of such railroad, for the year ending upon the thirty-first day of December next preceding, which tax shall be in lieu of all other State and county taxes upon the franchise, business, right of way, roadway, roadbed, rails, rolling stock, fences, stations and their appurtenances, and upon ferryboats when operated as a part of such railroad, and upon the shares of the capital stock, and upon the mortgages, deeds of trust, contracts or other obligation by which a debt is secured upon such property. All other property belonging to such corporation or person shall be assessed and taxed as other property is assessed and taxed. The gross annual earnings earned during the year ending on the thirty-first day of December last preceding, of all railroads, shall be, annually, before the first day of May thereafter, ascertained and declared by the State Board of Equalization, under such rules and regulations as may be prescribed by said Board; *provided*, however, that the Legislature may at any time pass laws prescribing said rules and regulations. In all cases where railroads are situated partly within this State and partly without this State the gross annual earnings thereof shall be ascertained and determined by taking:

First—The gross earnings which, during the year last preceding, have been earned wholly within this State.

Second—The gross earnings which, during the same year, have been earned partly within this State and partly without this State, which shall be ascertained by apportioning such earnings between this State and other States or Territories, in the proportion which the number of miles of such railroad situated in this State and used in making such earnings bears to the whole number of miles thereof by the use of which such earnings have been made. The proportion of interstate earnings thus ascertained shall be added to the earnings made wholly within the State, and the total thus obtained shall be taken and deemed to be the gross earnings of such railroads for all purposes of assessment and taxation. For every purpose of this section, except for the purpose of ascertaining the proportion of interstate earnings to be added to the earnings made wholly within this State, all railroads operated as one system shall be treated as one road. One third of the tax paid by corporations or persons owning or operating railroads under the provisions of this section shall become part of the General Fund of this State, and two thirds thereof shall be paid to the county or counties in which said railroad is situated, in proportion to the length of the railroad operated in the several counties. For the purposes of this section a consolidated city and county shall be treated as a county. Any corporation, association, partnership, person, or persons unlawfully failing or refusing to pay the tax herein provided, when the same shall become due, or within thirty days thereafter, shall be deemed to have waived their right to operate their railroads within this State. The taxes herein provided for, together with such penalties as the Legislature may impose for the non-payment thereof shall be a lien upon the property hereinbefore in this section designated, and may be enforced in such manner as the Legislature may by law prescribe. All railroads, so far as the same are situated within the boundaries of the common school district, shall be subject to an ad valorem tax for school purposes voted by the electors of the district at a special election held for that purpose, the same as other property situated within the district, anything in this article to the contrary notwithstanding. And all railroads, so far as they are situated within the boundaries of any incorporated city or town shall be subject to an ad valorem tax for municipal purposes the same as other property situated therein, anything in this article to the contrary notwithstanding.

SEC. 11. Income taxes may be assessed and collected from persons, corporations, joint stock associations or companies, resident or doing business in this State, or any one or more of them, in such cases and amounts, and in such manner as shall be prescribed by law. No Court within this State shall have power, by injunction or otherwise, to interfere with, hinder, or delay the collection of any tax laid under the form of law, except upon a showing that the same property has been taxed more than once for the same purpose in the same year; and then only upon payment to the Tax Collector, or into Court, of a sum equal to the amount of one of the taxes so laid upon the property in question: *provided*, that in all cases actions may be maintained against the Tax Collector to recover illegal taxes paid under protest. All such actions must be commenced within thirty days after such illegal taxes have been paid. It shall be the duty of the Court in which such actions may be brought to try them, upon the request of either party, in advance of all other civil actions, and such taxes so paid under protest shall be retained by the Tax Collector, or such other officer as the Legislature may designate, until such actions shall have been finally decided.

SCHEDULE.

Nothing in this amendment shall affect any assessment or tax heretofore made or levied, or interest thereon, or any penalty heretofore incurred, or any action or right of action on account of any such assessment, tax, interest or penalty; and all laws in force at the adoption of this amendment, not inconsistent therewith, shall remain in full force and effect until altered or repealed by the Legislature. The first levy and payment of taxes against railroad property hereunder, shall be made in the year eighteen hundred and eighty-six, and shall be upon the gross earnings, to be ascertained as herein provided, for the entire year of eighteen hundred and eighty five. Taxation for the fiscal year ending June thirtieth, eighteen hundred and eighty-five is not affected by this amendment.

Now, THEREFORE, pursuant to the provisions of the Constitution and an Act of the Legislature, entitled "An Act to Provide for the Submission of Proposed Amendments to the Constitution of the State of California to the Qualified Electors for their Approval, approved March 7th, A. D. 1883," the said amendment is submitted to be voted upon, by ballot, by the qualified electors of the State on

Tuesday, November 2, 1886.

The amendment is designated "Amendment Number One," and the BALLOTS used at such election must contain the words, "FOR THE AMENDMENT Number One," or the words, "AGAINST THE AMENDMENT Number One," written or printed thereon.

And I do hereby offer a reward of one hundred dollars for the arrest and conviction of any and every person violating any of the provisions of Title IV, Part 1, of the Penal Code; such rewards to be paid until the total amount expended hereafter for the purpose reaches the sum of ten thousand dollars.

Witness my hand and the Great Seal of the State, the day and year first written.

[SEAL.] GEORGE STONEMAN, Governor.
Attest: T. L. THOMPSON, Secretary of State.

SUMMONS.

In the Superior Court of the State of California, in and for the county of Los Angeles

Albert L. Jeffery, Plaintiff
vs.
Alexander Weil, Edward E. Mann and Elisha Mann, Defendants.

Action brought in the Superior Court of the State of California, in and for the county of Los Angeles, and the complaint filed in said county of Los Angeles, in the office of the clerk of said Superior Court.

The people of the State of California send greeting to: Alexander Weil, Edward E. Mann and Elisha Mann, Defendants.

You are hereby required to appear in an action brought against you by the above named Plaintiff in the Superior Court of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this Summons—if served within this county; or, if served elsewhere, within thirty days—or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain the decree of this Court declaring the Plaintiff herein to be the owner of the following described premises, to-wit, being part of the Rancho Azuza de Duarte: Commencing at the southeast corner of Lot No. 14 in Section 36; thence northerly along the east line of same Lot 14, 20 chains to the N. E. corner of said Lot fourteen; thence at right angles easterly 20 chains to a point; thence at right angles southerly twenty (20) chains to a point on south line of Section 31; thence along said south line of Section 31 westerly 20 chains to the point of beginning, containing 40 acres of land and being lot 13 in Sec. 31, county of Los Angeles, California. Also adjudging that the defendants or either of them have no estate or interest in or to the said premises, and for such other or further relief as to the Court may seem meet and for cost of suit. Reference is had to Complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will cause your default to be entered and will apply to the court for the relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the county of Los Angeles, this 31st day of July, in the year of our Lord, one thousand eight hundred and eighty-six.

SUMMONS.

In the Superior Court of the State of California, in and for the County of Los Angeles.

SAM PRINCE, Plaintiff,
vs.
SUSAN PRINCE, Defendant.

Action brought in the Superior Court of the State of California, in and for the county of Los Angeles, and the complaint filed in said county of Los Angeles, in the office of the Clerk of said Superior Court.

The people of the State of California send greeting to: Susan Prince, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this Summons, if served within this county; or, if served elsewhere, within thirty days, or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain the decree of this Court dissolving the bonds of matrimony between the plaintiff and defendant and for such other and further relief as to the Court may seem meet, and for cost of suit.

Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will cause your default to be entered and will apply to the Court for the relief demanded in the complaint.

Given under my hand and the Seal of the Superior Court of the State of California, in and for the county of Los Angeles, this thirteenth day of September, in the year of our Lord one thousand eight hundred and eighty-six.

The Latest and Greatest Discovery.

DR. J. DE PRATT'S HAMBURG FIGS.—A crystallized fruit cathartic. A discovery of the greatest interest to the medical profession. A boon to every household. A most delicious laxative or purgative, prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household through out the land. For liver complaints, habitual constipation, indigestion, dyspepsia and piles they are a specific. To travelers by sea and land they will be found invaluable; they are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that the children will eat the figs as eagerly as so much candy. For sale by every druggist throughout the world Price 25 cents a box. J. J. Mack & Co., Prop's, 9 and 11 Front Street, San Francisco, Cal.

A Cleveland speculator sent his son to Wisconsin to buy hops, telling him to keep his eyes open for any other speculation. After a few days a dispatch came, saying: "A widow has got a corner on the hop market of this State. Shall I marry her?" "Certainly," was the reply sent over the wires. Twelve hours later the son announced: "Got the hops, the widow, and seven stepchildren, and shall go to Chicago to-morrow to see about a divorce.—Wall Street News.

Over Many a League

Spreads the miasma, or poisonous vapor, that begets malarial and typhus fever. Wherever there is stagnant water in which vegetation or refuse of any kind decays, there, as surely as the sun rises, are generated the seed of fever and ague, dumb ague, and other endermic maladies of the malarial type. For the effects of this envenomed air, Hostetter's Stomach Bitters furnishes an antidote, and prevents both the contraction and recurrence of such maladies. Even along the line of excavation for the Lesseps Panama Canal where malarial diseases are not only virulent but deadly, Hostetter's Stomach Bitters has demonstrated its incomparable protective qualities. Not only for bilious complaints, but also for disorders of the stomach, liver and bowels, for rheumatism and inactivity of the kidneys and bladder is is very effective. It counteracts the effects of fatigue, damp and exposure.

A very serious cutting affray, caused by a quarrel over a drink of water, recently occurred in Little Rock.

From the locale of the incident we judge that each combatant insisted that the other should drink the water.—Rambler.

A peculiar virtue in Ayer's Sarsaparilla is that while it cleanses and purges the blood from all corruptions and impurities, and thereby roots out disease, it builds up and invigorates the whole system, and makes one young again.

A gentleman in Pittsylvania county, Virginia, swapped a mule valued at $100 for four hundred acres of poor, unimproved land. The railroad has since brought the land up to the cash value of $4000, but the owner complains of the increased tax, because it is so much larger than he would have had to pay upon the mule.

Many forget that the hair and scalp need cleansing as well as the hands and feet. Extensive use of Ayer's Hair Vigor has proven that it is the best cleansing agent for the hair—that it prevents as well as removes dandruff, cools and soothes the scalp, and stimulates the hair to renewed growth and beauty.

The subscriber having leased the premises occupied by Captain Timms—TIMMS' LANDING—is prepared to accommodate persons with comfortable rooms and board by the day or week at reasonable rates. Being on the point directly at the entrance to San Pedro Harbor, it is convenient to the depot, shipping and boating: also, to a splendid sandy beach, protected by the Breakwater, making it the most desirable bathing, boating and fishing resort on the coast. There is no day in the year, summer or winter, that they cannot all be enjoyed. San Pedro Harbor is never rough or dangerous and ranks next to San Francisco in shipping importance. The climate rivals San Diego and is remarkably free from fog. San Pedro only requires to be known to be the most popular resort.

The University Tract.

We are now offering lots in this beautiful part of the city, and wish to call special attention to the many advantages this property has. The lots are large, being 65x130 feet. The University of Southern California, just being completed at a cost of $50,000, is situated in the center of this Tract. A fine church and

A Large Number of Fine Residences have already been Built, and Many More will be Built this Fall.

The large Campus surrounding the University building is to be laid out by one of the best landscape gardeners, and it will be one of the most beautiful spots in all California. This tract has street cars and railway running through it. It is situated on the finest drive in the city, and only a short distance from the "Longstreet Place." Lots are selling rapidly at $400 to $450 for inside and $500 for corner lots. It is the cheapest and most desirable property in Los Angeles.

We will take pleasure in showing the property to any who will call at our office.

Local News Notes.

Tho. S. Miller, who exhibited a pistol in a threatening manner, will be tried this morning by Justice Austin.

The colored citizens hold a meeting tonight at Manufacturers' Hall. The Echo Glee Club will furnish music.

J. S. Chadwick, who is accused of having sent threatening letters to a Mrs. Winters, will be examined by Justice Austin this morning.

A. Schneider, the victim of the stabbing affray at the Cape Horn saloon on Monday night, is resting easily, and there is no appearance of immediate danger.

W. W. Weed, the shorthand reporter forfeited $10 deposit in the Mayor's court yesterday for having gone off on one of his periodical vulgar toots on Tuesday.

Mr. John Milner, the genial Deputy County Treasurer, is in a state of great rejoicing at the arrival of a son and heir at his happy home. Milner was always happy, but his present happiness beats the original.

A thief crawled into Mesmer's saloon, on Requena street, through the front door transom yesterday morning, and abstracted the small change left in the till. Several objects of value were overlooked or undesired, as they were untouched.

There is a fine picture of the rock of Gibraltar exposed in the window of the London clothing store, corner of Spring and Temple. It is the work of the late G. J. Denny of San Francisco, and is owned by C. F. Townsend of this city.

From Tuesday afternoon the two gorgeous new passenger cars and the new baggage car commenced running on the Colton local. They are a very decided improvement upon the cars used heretofore, which themselves gave little cause of complaint.

Miss Lizzie Miller, the evangelist, is holding a revival meeting each evening during this week, at the Main street Methodist church, at which many are being brought into the kingdom. She is an entertaining and instructive expounder of the scriptures.

The track of the L. A. & S. G. V. R. R. is laid to Myrtle avenue in Monrovia, and ties and rails are ready to extend the road to the San Gabriel river. On the first of November a fast train will be put on to run from Los Angeles to Duarte and a night opera train will be run to the city three times a week.

Mrs. O'Dea, the woman who was arrested by Officer Spencer for being unkind to her two little children, on Tuesday, whilst intoxicated, was released by the Mayor yesterday after a fatherly lecture from him. She was ready to take the cast-iron temperance oath, but His Honor told her he preferred to let her wait until she had overcome her nervousness, which was quite painful.

Jack Burk, the pugilist, said to be one of the cleverest men on the green earth, and who is to fight Jim Carr in this city on tomorrow night, arrived in this city yesterday. A HERALD reporter met Mr. Burk last night and found him as pleasant personally as he is powerful physically. Burk is confident of his ability to "do" Carr in the stipulated five rounds. The contest will doubtless be an interesting one, as both men are in excellent shape and anxious to win.

Germania Hall saloon, 30 N. Main street, was entered early yesterday morning by a rear window, and $6 in small change, and a valuable scarf-pin were taken out of the till. Joseph Vogel, the proprietor, who was in his bed-room at the rear of the saloon, heard a noise in the night, but paid no attention to it. A burglar who broke in the saloon of J. W. Westerhagen, 24 N. Main street, during the small hours yesterday morning, was only rewarded by a haul of $4 in cash, which he took out of the drawer.

Personal Mention.

Hon. F. M. Slaughter, of Chino, is at the St. Elmo.

H. L. Drew, banker of San Bernardino, is at the St. Elmo.

Capt. S. G. Thompson, of Wilmington, is at the Nadeau.

Mrs. M. E. Sawtelle and her artist daughter, are at the Nadeau.

E. G. Gottschalk, New Orleans, is at the Nadeau House.

Capt. A. A. Polhamus, of Wilmington, is at the St. Elmo.

Wm. Stewart, of San Francisco, is at the Grand Central Hotel.

Milton S. Latham, of Washington, D. C., is at the St. Elmo.

Bank Commissioner W. W. Moreland and wife are staying at the Nadeau.

Coroner O'Donnell, of San Francisco, is in Los Angeles, accompanied by his wife.

Bank Commissioner A. W. Potts returned from San Bernardino yesterday and left for his ranch last night.

Geo. H. Smith, otherwise known as the Count, the chief clerk of the Palace Hotel, returned home to San Francisco yesterday.

Rev. J. P. Grodjinsky of San Francisco, the learned expounder of the Talmud, after assisting in Los Angeles at the services of the Jewish new year has returned home.

J. G. Hill and wife, of San Buenaventura, are stopping at the Nadeau. Mr. and Mrs. Hill have been on a pleasure trip to San Francisco and around different parts of Southern California. They will return home in a few days.

One of Denny's Pictures.

The late lamented G. J. Denny, California's well-known marine artist, was a great favorite in Los Angeles, as in all parts of the State. Several of his pictures are owned here, one notable one by Judge Brunson, and another by J. DeBarth Shorb, Esq.

Yesterday Denny's famous Rock of Gibraltar attracted much attention in the window of the store of Mr. Harris, corner of Temple and Spring streets. It is the property of Mr. C. F. Townsend, of this city.

Coal-Oil Explosion.

A coal-oil stove exploded at about midnight in the Mechanics' Exchange, a subterranean saloon at the corner of Main and Arcadia streets. M. A. Whiteman, the proprietor, threw the stove on the floor and smothered the flames before the engines, which had been brought out by an alarm, arrived. After returning to their house the horses of Company 2, after being unharnessed, ran away down Main street.

Much Finer Horses

A Gigantic Forgery.

About 12 o'clock a young man dressed in an elegant checked suit walked into one of our prominent banks and asked the cashier if he would cash E. Adam's checks. The obliging cashier told him they were good as gold. The young man immediately took off his coat and handed it to the cashier, who looked at him in blank astonishment. The young man said: "Kindly give me gold for 'Adam's checks.' I bought this checked suit of Adam, the clothier, and only for gold will I part with it, as they become me better than any suit I ever had." The cashier rang his chestnut bell and ordered the lemonades. Then they commenced to talk of Adam's prices and found out that he is selling fine business suits at $10, $12 and $15; business suits, tailor made, at $15, $17.50 and $20; dress suits, $18, $20 and $22.50. They are latest styles and patterns, made up in tailor made style and bound to suit you in every particular. Therefore call soon at
